

"We have an established and expanding base station network in South East Queensland including the Lockyer Valley, Darling Downs and also the Callide Valley providing 2cm RTK correctional signal."

FM1000:

- 12" colour touch screen
- Integrated Dual GPS and Glonass receivers
- 2 Camera inputs
- Colour coded mapping, object marking, data logging and overlap mapping
- Yield mapping in compatible combines

Our Base Stations are located at:

Biloela	Millmerran
Brookstead	Nobby
East Greenmount	Tarampa
Gatton	Tummalville
Glenore Grove	West Talgai
Lawes	Wheatvale

We have a dedicated Precision Farming Unit, who are equipped to give you simple turn key solutions to any of your needs. Whether you already have a precision farming solution or if you are looking to benefit from the efficiencies these technologies will bring we can help.

If you are thinking of replacing foam markers or want variable rate control or if you wish to implement prescription and yield mapping, we provide an end to end solution for your needs - fully backed by David Evans Group.

Now in 8 locations.

EZ-Guide® 250:

- 4.3" colour screen
- Integrated GPS receiver
- Feature mapping
- Exportable record keeping
